Program Information

**Jr. Zookeeper:** Step into the boots of a zookeeper and learn what it takes to keep the animals happy, safe, & healthy!

**The Secret Life of Animals:** Ever wonder what your favorite reZOOdents are up to when you can’t see them? Join us this week to find out!

**Zoo Lab:** Did you know that zookeepers are scientists? Discover how they put their hypotheses to the test. Then, throw on your lab coat to investigate for yourself!

**Bees, Butterflies & Beetles:** This week of camp will have you bugging out with us as we learn all about how these small friends make a big impact on the world around us!

**Winter in July:** What better way to beat the summer heat than to bring winter to the zoo?! Join us this week to chill out with zoo pals who prefer cooler temperatures.

**Ferocious Fossil Fun:** Roar into the zoo for a dino-mite time as we learn how many of our prehistoric pals aren’t so different from our favorite reZOOdents!

**Animal Care:** Shadow a zookeeper, prepare animal diets, participate in animal training, and more during this in-depth, hands-on learning experience focused on everything it takes to be an Animal Care Specialist.

Animal Care I & II will involve similar activities but will focus on different animals.
