

Zoo Camp Field Trips & Pool Day

All groups will take one field trip per week. Past field trips have included visits to the Creative Discovery Museum, Reflection Riding, High Point Climbing Gym, and others. Campers will take a school bus from the zoo to the field trip location and then back to the zoo. Campers will bring their lunch and water on field trips.

We will be complying with all guidelines that these institutions have in place when we visit (i.e. mask requirements, separate permission forms, etc). Campers will receive a t-shirt with their registration and will be asked to wear this shirt on the day of the field trip.

All groups will also visit the Warner Park Pool & Splash Park during their week of camp. This facility is fully staffed with lifeguards. Life vests are available at the pool and may be required by lifeguards if they feel a camper would be safer wearing one.

The facility has a splash pad area with dumping buckets and sprinklers, two small pools (2-3 feet deep or less), and one large lap pool (4 feet and deeper). The lap pool has an area roped off for swimming and an area with inflatable obstacle courses.

Campers entering 1st Grade and younger will be restricted to the small pools and the splash pad area. Campers entering 2nd Grade and older will have the option to take a swim test in order to have access to the lap pool and obstacle courses without a life vest. If they do not pass the swim test or do not want to take it, they can still access the large pool and obstacle course, but they will be required to wear a life vest.
