

Nocturnal Animal Scavenger Hunt (K-2nd Grade)

Animal Hint	Animal Fact	Animal/Mark When Found
	I stay hidden under the sand during the day and sneak up on my prey at night.	
	I sleep underground during the day to avoid the desert heat.	
	My feathers are designed for silent flight so I can sneak up on prey at night.	
	I have a very large nose to help me find food in the dark.	
	During the day, I sleep in hidden places, like tree holes, to avoid predators.	

Nocturnal animals are more active during the (circle one): day night
