

# Project Based Partnership

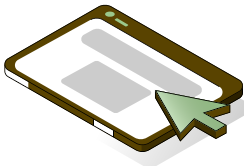

1

## Teacher Professional Development

Receive teacher cohort training on the implementation, purpose, and conservation context behind the Zoo's PBL units. Choose between the hellbender (amphibian), pied tamarin (small mammal), roti island turtle, or Bali Myna (bird) content.

2

## Free Content Access

Over 25 lesson plans and supporting materials, graphics, videos, student and teacher guides, and more are included in the hellbender unit. For other units, a standard usage rate is applied per teacher unless a district sponsorship is involved.

3

## Adopt an Animal: Class Engagement

For sponsoring districts, classes will receive multiple adopt-an-animal perks to share, such as plushes, limited animal naming opportunities, competitive updates on hellbender growth, and exclusive content about release or babies!

4

## Field Trip and Outreach Modes

Each unit includes 2-4 lesson plans which can be done by a Zoo educator during a field trip program or at your school with live ambassador animals! Standard field trip, admission, and outreach pricing or mileage fees are required unless a district sponsorship is applied.

5

## Projects for Zoo Use & Advocacy

Each unit includes a full guide for teachers and students to frame student work towards expressing and applying learning in the forms they choose - educational content the Zoo can use, speeches, buttons, data reports, interactive maps, & more.
